EXPERIENCE

Sparks Behavioral Services BLOOMFIELD, MI • MAY 2025 – PRESENT

Senior Product Designer • Clinical Assessment & Treatment Planning Platform JAN 2026 – PRESENT

- Leading 0-to-1 design of a clinical assessment and treatment-planning product, translating a complex paper-based BCBA workflow into an **18-screen interactive experience** spanning evidence collection, clinical reasoning, documentation, and treatment planning.
- Designed a guided-but-nonlinear workflow with evidence provenance, missing-information states, dependency-driven review, and clinician-controlled decision making, preserving human judgment across high-stakes clinical decisions.
- Led iterative product validation across workflow, interaction, content, state, dependency, and clinical-reasoning audits before advancing the prototype toward functional development.

Product Designer • Cooperant Learning MAY 2025 – JAN 2026

- Designed and built Cooperant Learning from scratch, a 0-to-1 CEU credentialing platform consolidating five disconnected learner steps into one live product across six core surfaces.
- Drove a **35% repeat-purchase rate** and **+250% organic-search growth**; validated through 20 moderated BCBA sessions with **SUS 84.9**, **NPS +65**, trust 4.65/5, and 86% task completion.

University of Michigan–Dearborn DEARBORN, MI • MAY 2025 – PRESENT

Graduate Research Assistant, UX Designer

- Supported automation-trust HMI and AI-assisted learning research, translating complex system behavior into testable scenarios, instruments, and decision-ready findings.

Ingersoll Rand Industrial Technologies BANGALORE, INDIA • JAN 2018 – JUL 2024

Senior Product Design Engineer • Fleet Coordination JUL 2023 – JUL 2024

- Designed and shipped a fleet-coordination web platform that scaled to **~40 facilities, ~150 assets, and ~200 users**.
- Made automation reasoning legible, driving **~85% coordinated-mode use, ~13% energy reduction**, and **~99.4% uptime** through six pilot failure events.

Junior Product Design Engineer • Industrial HMI JUL 2019 – JUL 2023

- Designed a state-first **34-component controller UI** across three displays, adopted across 4 brands, 18 configurations, 12 languages, and 40+ markets.

Engineering Intern to Graduate Trainee JAN 2018 – JUL 2019

- Mapped controller-display information architecture and sensor-to-screen behavior, surfacing gaps later adopted in the platform home framework.

SELECTED PROJECTS

Mochitta • 0-to-1 Product Design (Capstone) ANN ARBOR, MI • AUG 2025 – APR 2026

- Designed an emotion-aware iOS finance prototype; two moderated rounds with the same six participants raised **SUS 62.9 → 72.9**, with all 12 benchmarks passing.

Black Baza Coffee • Product Designer (Freelance) REMOTE • JUN 2025 – SEP 2025

- Designed an in-production commerce and traceability platform; buyer testing reached **SUS 71.6** and 88% repeat-order success at a 65-second average.

SKILLS

Product Design

End-to-end UX, product thinking, information architecture, user flows, prototyping, responsive UI, accessibility (WCAG)

Growth & Research

Usability testing, interviews, surveys, synthesis, KPI definition, event taxonomy, instrumentation

AI-Assisted Workflow

Claude Code, Cursor, GitHub Copilot, Figma Make; AI-assisted research synthesis and rapid prototyping

Tools

Figma, FigJam, Qualtrics, Maze, UserTesting, Dovetail, GA4, Amplitude, Mixpanel, Jira

EDUCATION

Master of Science, Human-Centered Design and Engineering

University of Michigan–Dearborn
• GPA 3.84

AUG 2024 – APR 2026

Bachelor of Science, Mechanical Engineering

Nagarjuna College of Engineering and Technology • GPA 3.7

MAY 2014 – MAY 2018

AWARDS & COMMUNITY

Extra Mile Award, Ingersoll Rand (Feb 2024)

Outstanding Spot Award, Ingersoll Rand (Jun 2023)

Design Club at UM–Dearborn, President: grew participation 70%, delivered 12+ design assets
